

"The Chlorine Dioxide People"

Providing you with chlorine dioxide solutions for your decontamination needs

CD-TAB Chlorine Dioxide Generating Tablets

CD-TABS offer a simple method for generating chlorine dioxide liquid. Simply drop one tablet into a gallon of water to generate a generic, 100 ppm solution of liquid chlorine dioxide. CD-TABS are inexpensive and easy to use and provide a non-acidic, chlorine dioxide odor-control solution. If higher concentrations are desired, simply add another tablet.

General Use: Please follow instructions provided with each box of CD-TABS.

1. Drop CD-TAB tablet into water
2. Let it dissolve (do not stir or agitate)
3. Spray or wipe surface

Product Number	Water Required	CD Solution Concentration	Quantity per box
CDTAB400	1 Gallon	100 ppm	400 Tablets
CDTAB1000	1 Gallon	100 ppm	1000 Tablets
