

APPAREL SYSTEMS FOR CLEANROOM & CONTROLLED ENVIRONMENTS

Worklon[®]

A Fashion Seal Healthcare[®] **Brand**

A trusted provider since 1962

About Us

Worklon®, a Fashion Seal Healthcare® brand:

Offering innovative & high-quality cleanroom apparel since 1962

Worklon® products provide the ultimate protection when it comes to particulate control, fluid resistance, bacterial filtration, & electrostatic dissipation. We achieve this through our comprehensive line of cleanroom & controlled environment apparel & accessories.

Superior Group of Companies®:

Established in 1920

- Financially sound, NASDAQ listed (SGC), flat & flexible organizational structure
- Global sourcing & manufacturing presence with extensive supply chain capabilities
- Comprehensive in-stock product line & fabric availability
- Custom apparel program implementation & management
- Advanced reporting capabilities & inventory management
- Dedicated Client Services & Customer Care Teams
- Solution focused, consultative services & implementation assistance

A COMMITMENT TO QUALITY CONSTRUCTION & MATERIALS SINCE 1962

On-Site Quality Control Laboratory equipped with state-of-the-art testing equipment, utilizing standard industrial test methods such as AATCC & ASTM

When testing fabric, we test for color correctness, colorfastness, pilling & tensile strength. In addition, we test all of the embellishments on the uniform including buttons, zippers, linings, etc.

Stringent fabric & finished garment inspection processes in place

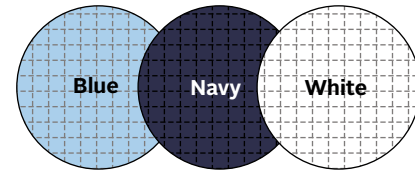

Sample Evaluation process to ensure the garment is made to the specifications required

Worklon®

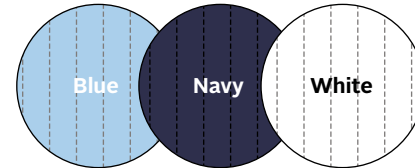

Pages 4, 5
SC-Grid System

This polyester with carbon grid, high-density apparel system offers a high level of surface resistivity & static dissipation for a variety of industries including laser, disk drive, semi-conductor, & microelectronics. Engineered to meet up to a Class 10 (ISO 4) cleanroom's standards.

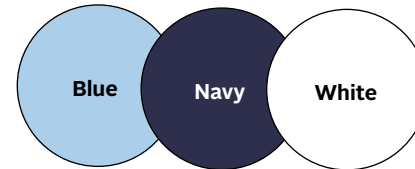

Pages 6, 7
HD-ESD System

Maxima® High Density ESD polyester with carbon yarn stripe fabric can be used in a variety of industries including pharmaceutical, biotechnical, biological, & food processing where particulate control, & fluid and bacteria resistance is essential. Engineered to meet up to a Class 10 (ISO 4) cleanroom's demands.

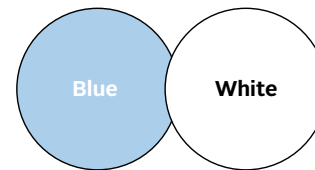

Pages 8, 9
LD-100 System

100% Polyester Taffeta can be used in a variety of industries requiring particulate control & resistance to chemicals & abrasion. Engineered to meet up to a Class 1,000 (ISO 6) cleanroom.

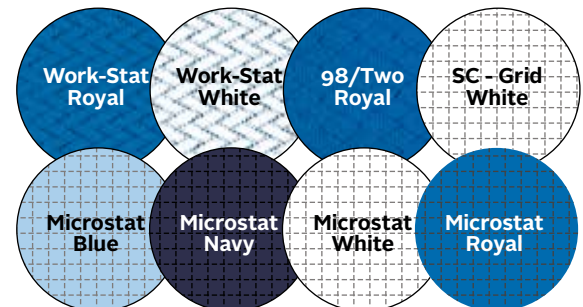

Page 10, 11
HD-10 System

This densely woven, 100% Polyester fabric offers excellent barrier protection against bacteria, fluids, & particles, & can be worn in a variety of industries including pharmaceutical, biotechnical, biological & food processing. Engineered to meet up to a Class 10 (ISO 4) Cleanroom's demands.

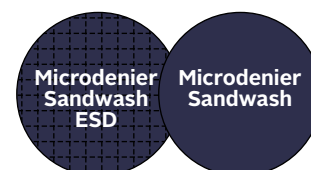

Pages 12-14
ESD Lab Wear

Available in g8/Two, Microstat, SC-Grid, & Work-Stat. Each system offers unique characteristics to meet specific manufacturing requirements in the microelectronics & similar industries from assembly to peripheral areas where static control remains critical.

Page 15
Inner Suits

Available in 100% Polyester Microdenier Sandwash & 99% Polyester/1% Carbon Grid Microdenier Sandwash ESD fabrics, Inner Suits provide low particulation, excellent opacity, & drapability.

SC - Grid System

99% Polyester/1% Carbon Yarn

This polyester with carbon grid, high-density apparel system offers a high level of surface resistivity & static dissipation for a variety of industries including laser, disk drive, semi-conductor, & microelectronics. Engineered to meet up to a Class 10 (ISO 4) cleanroom's standards.

Custom Apparel Programs

Worklon® realizes that certain environments demand specialized garments for the protection of their personnel & products. Using only the finest components & meticulous standards, Worklon® has the resources & design engineers to help create custom apparel to meet our customers' needs.

With millions of yards of fabric on hand in over 500 varieties, & manufacturing capabilities worldwide, we are able to deliver custom products in a timely manner. Simply let us know what your requirements are & we will take care of the rest!

Our talented Product Development Team can help you develop custom programs that fit your requirements:

- Deliver the exact features & specifications required
- Consultative & solution driven
- Minimize the number of SKUs in your program
- Differentiate yourself with a unique offering

UNISEX HYPALON SOLE CLEANROOM BOOTS & SHOE COVERS

Because the actual outside dimensions of shoes vary within a size, the below sizing is approximate.

Size	XS	S	M	L	XL	2XL
Color-Code	Blue	Orange	Yellow	White	Red	Black
Shoe	4-5½	6-7½	8-9½	10-11	11½-12½	13-14

Customer Satisfaction

Fashion Seal Healthcare® represents our commitment to quality & service. Our policy is to assure customer satisfaction with all garments sold.

Returns: If you are not fully satisfied, notify us of your desire to return any stock items within 30 days of receipt of merchandise. A "Return Goods Authorization" (RGA) will be sent to you promptly. Please follow all instructions as outlined in the RGA, & make sure all packages are trackable & marked with the RGA number.

After our receipt of the returned merchandise, a credit of the purchase price will be made for styles returned in accordance with the RGA instructions unless such styles have been worn, laundered, dry cleaned, altered, abused, embroidered, emblem added, marked, or specially made per buyer's instructions. Returns will not be accepted by our distribution center without a RGA.

How to Place an Order: Our skilled Customer Care Team is eager to assist you Monday through Friday from 8:00 AM - 8:00 PM Eastern Standard Time. Our representatives can help you place an order, check the status of an order, customize apparel, or answer any questions you may have concerning any of our products.

Phone: 1-888-491-5818
